Dear Councillor Croad,

Police and Crime Commissioner's Response to the Panel's Report on the Precept

Thank you for the time provided at the Police and Crime Panel to discuss the detail of my Council Tax Precept proposal for 2023/24. I am pleased that the Panel unanimously agreed to support the £15 increase (for a Band D property) as this will allow me to protect police office numbers at record levels and enable the new Chief Constable to make critical investments so that public safety is maintained.

As in previous years, I will be informing every household in Devon, Cornwall and the Isles of Scilly of the changes and how their money is spent via a Council Tax leaflet and I am grateful for the support of local authorities in assisting with this process.

In pursuance to the legislation, I will be publishing this response on the OPCC website today.

Best regards

Alison Hernandez
Police and Crime Commissioner
