...make things better for you

Have you been a victim of crime?

Are you an adult with a learning disability that has been a victim of crime?

Our Victim Support Workers can help and support you to find ways to cope and recover.

We will work completely around your needs to give you a person centred service.

We can refer you to and help you find other support and advice if you need it.

We can meet you face to face in a place that suits you.

We can work with you alone, or we can work with your family and carers.

- We will listen to you
- We will believe you
- We will give you time
- We won't judge you
- We will help you to help yourself
